

MICHAEL REEVES

WordPress & Front-End Web Developer

CONTACT

- **Phone:** +44 (0) 7975 930234
- **Email:** reevesy87@hotmail.co.uk
- **Location:** Sunbury-Upon-Thames, Surrey, London, TW16 7RH
- **Website Portfolio:** www.msreeves.co.uk

PROFILE

I am an adaptable Front-End Web/WordPress Developer and Editor with extensive experience working across various digital publication organisations. I manage high-traffic publishing platforms for clients like the BSI Group and Mark Allen Group, building components, handling emails, and crafting social media assets. My technical stack spans modern React framework, WordPress, EpiServer, and Umbraco CMS. I regularly leverage workflow tools like HubSpot, Canva, and Cursor AI to optimise project delivery, accelerate troubleshooting, and rapidly master new technical methodologies. I am a proactive team player known for accuracy, reliability, and bringing innovation to every task.

SKILLS

- **AI Development Workflow:** Cursor AI
- **Core Engineering Stacks:** React, JavaScript, Node.js, PHP, HTML, CSS, SCSS
- **CMS Platforms:** WordPress (Plugins include Elementor, ACF, E-commerce), EpiServer, Umbraco, Drupal
- **Enterprise & Marketing Tools:** HubSpot, Workfront
- **Design & Creative Asset Production:** Adobe Photoshop, Canva
- **Professional Competencies:** Web Design/Development Design Thinking, Computer Literacy, Project Planning & Task Organisation, Technical Deadline Management
- **Soft Skills & Collaboration:** Cross-functional collaboration with web specialists, content editors, publishers, and graphic designers; client requirement gathering and stakeholder communication

PROFESSIONAL EXPERIENCE

Website Editor (Contract) | BSI Group (www.bsigroup.com)

August 2023 – Current

- Managed and uploaded complex web content using an EpiServer CMS, successfully supporting a massive multi-division site launch spanning several hundred pages.
- Maintained and optimised regional content operations across 40+ international country websites.
- Built a diverse variety of campaign, certification, white-paper, blog, and webinar pages using native CMS layout components.
- Collaborated directly with global content teams and stakeholders across the Healthcare, Energy, ICT, and Built Environment divisions to process English and non-English digital assets.
- Tracked project delivery and resolved agile support tickets via the Workfront to CMS Optimizely enterprise system.

Website Developer | Nexus Media Group (www.nexusgroup.co.uk)

June 2021 – June 2023

- Developed and maintained commercial publishing and event websites utilising WordPress and ASP Events CMS architectures.
- Engineered responsive front-end changes using PHP, HTML, CSS, and JavaScript, Wordpress extending platform themes through Elementor and ACF.
- Designed and executed targeted marketing newsletters and automated event notifications within HubSpot.
- Created promotional social media graphics using Canva, and prepared multimedia content using Photoshop, Vimeo, and Issuu.

Web Content Management Assistant | RUSI (www.rusi.org)

April 2021 – June 2021

- Supported a major enterprise website launch by audit-managing and migrating content across thousands of target pages using Drupal CMS.
- Ensured SEO best practices by meticulously formatting copy and assigning structural metadata.
- Cropped, compressed, and optimised digital assets for rapid-load deployment.

Web Designer | Mark Allen Group (www.markallengroup.com)

November 2018 – October 2020

- Partnered in a collaborative front-end and back-end team to build, launch, and maintain commercial client web layouts utilizing WordPress and Umbraco.
- Engineered clean code using WordPress template architectures, HTML, CSS, and JavaScript to transform static design layouts into fully functional websites.
- Produced engaging event websites and editorial feature layouts for diverse industry portfolios, including *TES Show London*, *Nursery World*, *Drama and Theatre*, and *Technology Business Today*.

Web Designer / Front-End Developer | Fern & Noble

January 2018 – March 2018

- Wrote production-ready HTML, CSS, and JavaScript code to make layout alterations and front-end improvements to the core company site.
- Boosted user interaction rates by building custom image/product carousels, pop-ups, and interactive contact forms.
